# **Affiliate Program**

Only the Traders can participate in the partnership program. Traders are Exchange participants who have placed and successfully completed transactions on buying / selling, exchanging cryptocurrency on the Exchange;

Participants of the affiliate program can only be Traders who have passed all 4 levels of verification on the Exchange;

Participants in the affiliate program form a network consisting of 4 levels;

The affiliate program consists of four levels. To achieve each of them, the trader needs to make transactions on the Exchange, the sum of which is equivalent to the following indicators:

Level	1	2	3	4
The amount of transactions (BTC or equivalent)	50	30	10	10

The reporting period for reviewing the level of activity of the participant is 1 calendar month (30 days);

The user of the first level is the organizer of the whole formed network, called the "division". He is responsible for the functioning of his entire division, consisting of lower levels;

The division has limitations on the number of participants in accordance with the following table:

Level	1	2	3	4
Number of people in the level	1	3	15	75

Table 1 - Number of participants in the division by levels

With each transaction of sale and / or exchange of Crypto-currency, made by Users, a commission is charged to the Exchange, which is 1% of the transaction amount;

Within the reporting period, for each division, a general plan is established for making deals in the amount of **BTC** or its equivalent. Also for each member of the division an individual plan is established in the amount of **BTC** or its equivalent, respectively:

Level	1	2	3	4	Total by levels
Transactions / month by levels in BTC	50	30	20	10	110

Table 2 - Individual plan of the volume of transactions for each level of the division for the reporting period

Level	1	2	3	4	Total by levels
Transactions / month by levels in BTC	50	30	20	10	110
Number of people in a level	1	3	15	75	94
General division's indicators of the BTC / month	50	90	300	750	1190

Table 3 - Plan of the volume of the division's transactions for the reporting period

The participants' income in the Division are divided into two parts:

Each participant of the level receives income that is calculated according to the formula

$$I_t = \frac{I_l * S}{n_l}$$

**I<sub>t</sub>** - income of a participant of a level;

**I<sub>l</sub>** - Exchange's income from transactions made by a specific Level;

**n<sub>l</sub>** - the number of participants in a particular level;

**S** - the rate of interest from the Exchange's income from transactions of its Level, in accordance with the Table below;

Level	1	2	3	4
Remuneration for the whole level / month from the total income of the Exchange from level volume in %	25%	15%	8%	2%

Table 4 - Remuneration level of the level from the total income of the Exchange

Each top-level participant receives an income as a percentage of the Exchange's total commission received from transactions made at lower levels, provided that the plan is fulfilled by all the participants of the division, calculated for each level separately according to the following formula:

$$I_{t1} = \frac{(I_{l1} * S) + (I_{l2} * S2) + (I_{l3} * S3) + (I_{l4} * S4)}{n_{l1}}$$

$$I_{t2} = \frac{(I_{l2} * S) + (I_{l3} * S3) + (I_{l4} * S4)}{n_{l2}}$$

$$I_{t3} = \frac{(I_{l3} * S) + (I_{l4} * S4)}{n_{l3}}$$

$$I_{t4} = \frac{(I_{l4} * S)}{n_{l4}}$$

**$I_{t1} - I_{t4}$**  - income of a participant of a level;

**$I_{l1} - I_{l4}$**  - Exchange's income from transactions made by a specific Level;

**$n_{l1} - n_{l4}$**  - the number of participants in a particular level;

**S** - the rate of interest from the Exchange's income from transactions of its Level, in accordance with the Table below;

Level	1	2	3	4
Remuneration for the whole level / month from the total income of the Exchange from the level in % (S)	25%	15%	8%	2%

Table 5 - Remuneration level of the level from the total income of the Exchange

**S1 - S2** - the rate of interest on the income of the Exchange from a lower level of transactions, in accordance with the table below.

First level	15%	10%	5%
Second level		15%	5%
Third level			5%
Fourth level			

Table 6 - The amount of remuneration of the higher level from the total income of the Exchange from the level

The remuneration for the previous month is paid by the Exchange on the basis of and only provided that a report on the results of the division's work for the previous month was sent by the Division Organizer in electronic form to <mailto:support@neuronchain.io>;

The division's revenue is distributed only among active Traders. In the event that the trader for the reporting period made transactions less than the established limit for the corresponding level, he moves to a level, corresponding to the number of transactions conducted by him and is deprived of the right to receive a percentage of income of the division of the previous level.

Inactive Participant is excluded from the division by decision of the Division Organizer. In case of exclusion of a Participant from the Division of the Level 2 or Level 3, the Participant from Level 3 or Level 4 who "has raised" in the amount equal to the level requirement is "raised" to the vacated seat.

The participant who has passed to the higher level begins to receive a percentage of income from the lower levels and acquires the right to form his subdivisions.

In this case, moving up the levels is carried out in sequence 4-3-2. In case of exclusion of a Participant from the Division of the Level 4, the most active Exchange User involved in this division, who has committed the number of transactions required for this level and expressed the desire to become a Trader (in other words, he has placed an order to buy or sell cryptocurrency), "rises" to his place.

The process of expulsion of the Organizer of the network (Level 1) is headed by the Administration of the Exchange.

Transactions between members of a division of any level are excluded from the indicators to reach the next level.
